

# CUSTOMIZED STUDS - U-BOLTS - THERADED BOLTS

Thanks to the new device inaugurated in 2016 Leonix is able to supply fully, partially or double end threaded rods and welding studs starting directly from wire rods. This ensures faster deliveries and more competitive prices in compare to the traditional production starting from bar. This family of products includes also U-bolts, Dowel screws and customized studs with special geometries.

## MAIN SHAPES

### MAIN RAW MATERIALS (WK)

#### AUSTENITIC

1.4301 / 1.4307 / 1.4567 / 1.4828 / 1.4845  
1.4841 / 1.4401 / 1.4436 / 1.4404 / 1.4435  
1.4436 / 1.4571 / 1.4541 / 1.4578 / 1.4539  
1.4529

#### DUPLEX

1.4462

#### PH (precipitating hardening)

1.4980

#### FERRITIC

1.4006 / 1.4016 / 1.4028

### MAIN THERMIC TREATMENTS

Annealing / Hardening / Tempering / Solubilization / Aging / Distension / Stabilization

### MAIN SURFACE TREATMENTS

#### ANTICORROSION

Passivation / Geomet / Deltaseal / Delta protect / Zinc plating / Tin plating

#### LUBRICATION

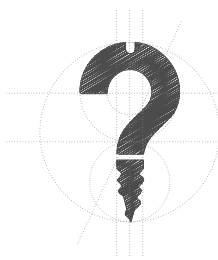

Gleitmo / Torque n tension / Molycote

#### THREADLOCKING / THREADSEALING

Precote / Tuflok / Nycote / 3M Schotch grip
